TAM delivers a Saab 2000 to Sky Work Airlines

Örebro, Sweden: Täby Air Maintenance, TAM, has delivered a Saab 2000 to Swiss Sky Work Airlines. The aircraft – c/n 056 with the registration HB-IYA – is the fourth Saab 2000 for Sky Work Airlines and was ferried from TAM's main overhaul facility at Örebro airport on December 22nd.

- With Sky Work Airlines being a long term TAM customer, I am very happy that we managed to prepare and deliver this aircraft within a tight time frame, says Pär Gulle, TAM Managing Director.
- At a rather short notice and with a tight schedule, we could deliver the aircraft in due time to Sky Work, which I am proud to say is a hallmark for our level of service.
- For Sky Work Airlines, this work included regular maintenance as well as overhaul of engines, propellers and landing gear. We were also tasked with preparing the aircraft for high-quality airline service, Pär Gulle summarizes.

About TAM:

TAM is a major, independent aircraft support and maintenance company, based in Örebro, 200 km west of Stockholm, Sweden. Having been in operation since 1989, TAM has over the years accumulated a vast experience in general support, maintenance and overhaul of small to medium sized airliners and freighters, with a focus on the Saab 340/Saab 2000 family of regional aircraft. Having all the necessary approvals, including EASA Part 145 and FAA Repair Station, TAM is ideally suited to support any operation with tailor-made maintenance and overhaul as well as having the leading Saab 340 cargo conversion programme.
