TAM to cargo convert Saab 340B for Alandia Air

Örebro, Sweden: Täby Air Maintenance, TAM, has signed a contract with Alandia Air of Mariehamn, Åland (Finland), for the conversion of one of their Saab 340Bs to cargo configuration.

The aircraft – c/n 224 with the registration N9CJ – will be ferried from the United States, due to arrive in TAM's main overhaul facility at Örebro airport on September 8th.

Alandia Air is specialized in operating leases primarily for SAAB 340's.

- With renowned Alandia Air being a long term TAM customer, I am glad to see we continue to consolidate our position as the globally leading Saab 340A/B cargo conversion partner, says Pär Gulle, TAM Managing Director.
- This agreement is another valuable sign of market confidence in our joint FAA/EASA approved Saab 340 cargo conversion programme.
- In addition, as we have been trusted with a major overhaul on this aircraft, I am proud to say this is also a sign of our strong position as the preferred choice for Saab 340/Saab 2000 maintenance, overhaul and conversion work, Pär Gulle summarizes.

About TAM:

TAM is a major, independent aircraft support and maintenance company, based in Örebro, 200 km west of Stockholm, Sweden. Having been in operation since 1989, TAM has over the years accumulated a vast experience in general support, maintenance and overhaul of small to medium sized airliners and freighters, with a focus on the Saab 340/Saab 2000 family of regional aircraft. Having all the necessary approvals, including EASA Part 145 and FAA Repair Station, TAM is ideally suited to support any operation with tailor-made maintenance and overhaul.
