TAM broadens its customer offering – ATR 72s to complement Saabs

Örebro, Sweden: Täby Air Maintenance, TAM, is proud to announce its most important new customer offering for decades: the current wide range of services for the Saab family of regional airliners is complemented with a full range of support for the ATR72.

The first batch of technicians is already licensed and a full set of tooling has been delivered, in due time to be ready when the first aircraft is due to arrive in mid March.

- Having been in business for more than thirty years, I dare to say this major investment is one of the most important steps we have ever taken, says Pär Gulle, TAM Managing Director.
- I am proud to state that we, over the years, have built a strong reputation for first class support for the worldwide fleet of Saab 340 and Saab 2000 regional airliners.
- Now, by adding the ATR72 to our customer offering, we will be able to remain the natural choice for qualified maintenance, repairs and modifications that any operator of regional airliners might need, Pär Gulle summarizes

About TAM:

TAM is a major, independent aircraft support and maintenance company, based in Örebro, 200 km west of Stockholm, Sweden. Having been in operation since 1989, TAM has over the years accumulated a vast experience in general support, maintenance and overhaul of small to medium sized airliners and freighters, with a focus on premium aircraft like the Saab 340/Saab 2000 family and the ATR72.

Having all the necessary approvals, including EASA Part 145 and FAA Repair Station, TAM is ideally suited to support any operation with tailor-made maintenance and overhaul as well as having the leading Saab 340 cargo conversion programme.
